

# Calculating Energy Needs:

| Electronics     | Amps | Usage Per Day | Power Loss | Total Energy Usage |
|-----------------|------|---------------|------------|--------------------|
|                 |      | (hours)       | (-10% AC)  | (Ah per day)       |
| LED Light Strip | 2    | 6             |            | 8                  |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
|                 |      |               |            |                    |
