

Common Electronics To Consider

Electronics

General

- Overhead Lights
- Reading Lights
- Vent Fan

Kitchen

- Refrigerator
- Water heater
- Water pump
- Electric Stove
- Microwave
- Coffee Maker
- Toaster Oven

Entertainment

- Laptop
- Tablet
- Television
- Desktop
- Camera
- Stereo
- Signal Booster
- Satellite
- Radio

Comfort

- Air conditioner
- Electric Blanket
- Electric Heater

*Note: this is not a list of all the electronics you **should** bring along. It is to be used as a starting point to help decide which devices you would ideally like to power.

DC or AC power?

When deciding which electronics to bring along in the van, pay attention to whether the device uses AC or DC power.

AC powered electronics include anything that can plug into a household socket. These devices cannot be plugged directly into a battery and will require a power inverter to operate. Power inverters will cause a ~10% loss in efficiency. For any AC powered device on your list, try to find a DC equivalent!
